(3) Planned Program Benefits. (Describe below how your planned programs and activities will address the needs of low income families identified above. Also describe how your planned programs will address the various types of housing assistance needs NAHASDA § 102(b)(2)(B)):

The Ninilchik Tribe's mission to the people of the Ninilchik area is to promote self sufficiency through the development of affordable, safe and decent housing opportunities for eligible Alaska Natives/American Indians residing within the Ninilchik Tribal boundaries.

Housing Program services will be provided to those qualified low income Alaskan Native/American Indians who reside within Tribal service boundaries, meet program policies and have met application requirements.

Homeownership Program:
By building homes we will give our low income Alaskan Native/American Indians, (AN/AI) families a sound boost up in life, by providing them with a safe and 6 star plus energy efficient home.
There will be one home built per grant year for a verified low income AN/AI family.
Rehabilitation and Weatherization Programs:
Promote safe and decent housing through Rehabilitation and greater Energy Efficiency through Weatherization.

Emergency Assistance:
Providing Emergency funds to families who are in danger of becoming homeless through such means as: foreclosure, repossession, rental assistance for a limited time, disconnect or loss of main utilities or lack of primary heating source during the winter months.

Snow Removal Program:
By providing Snow Removal and Sanding of driveways, we are promoting self independence and safety to our Elders and Disabled families, by allowing them safe access to and from their homes during the winter months.

Administration funds:
Using budgeted Administration funds, the Ninilchik Indian Housing Programs will provide Housing Programs Staff with funding for salaries, travel, consumable and non consumable supplies and attend trainings that are offered to further educate the Housing Staff with housing related issues needed to provide services to eligible low income Alaskan Natives and American Indians within our Tribal service area.

(4) Geographic Distribution. Describe below how the assistance will be distributed throughout the geographic area and how this geographic distribution is consistent with the needs of low income families. NAHASDA § 102(b)(2)(B)(i):

The Ninilchik Indian is located on the Kenai Peninsula, and is one of the eight federally recognized tribes within the Cook Inlet area.

The geographic area is to be the same as the Federally Recognized Ninilchik Tribal Boundary area, a brief description is as follows: South side of Kaslof bridge to the highest point on Mt Redoubt Volcano to the farthest land at mean tide south of the Homer spit, Southernmost point of Fox Lake and the Westernmost point of Caribou Island back to the south side of the Kaslof bridge.

The Ninilchik Indian Programs will provide services to those families that have applied, provided all necessary information and have met the program requirements.

Advertising of Housing Programs shall be done by using the Tribal Newsletter. This has shown to attract the widest audience about our different Housing Programs.

Currently on our Tribal Website, we have brief descriptions of all our Housing Programs, along with the applications available in PDF format for immediate download for interested families.
SECTION 3: PROGRAM DESCRIPTIONS
[102(b)(2)(A), [233(a), [235(c)], [404(b)], 24 CFR §1000.512(b)(2) and (3)
Planning and Reporting Program Year Activities

In this section, the recipient must provide a description of its planned eligible activities, and intended outcomes and outputs for the One-Year IHP. The recipient can select any combination of activities eligible under NAHASDA and intended outcomes and outputs that are based on local needs and priorities. There is no maximum or minimum number of eligible activities or intended outcomes and outputs. Rather, the One-Year IHP should include a sufficient number of eligible activities and intended outcomes to fully describe any tasks that the recipient intends to fund in whole or in part with IHBG resources during the coming program year.

Subtitle B of NAHASDA authorizes recipients to establish a program for self-determined housing activities involving construction, acquisition, rehabilitation, or infrastructure relating to housing activities or housing that will benefit the low-income households served by the Indian tribe. A recipient may use up to 20 percent of its annual allocation, but not more than $2 Million, for this program. Section 233(a) of NAHASDA requires a recipient to include its planned self-determination program activities in the IHP, and Section 235(c) requires the recipient to report the expenditures, outputs, and outcomes for its self-determination program in the APR. For more information, see PIH Notice 2010-35 (Demonstration Program - Self-Determined Housing Activities for Tribal Governments) at http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_8814.pdf

The One-Year IHP is not required to include eligible activities or intended outcomes and outputs that will not receive IHBG resources. For example, the recipient may be planning to apply for Low Income Housing Tax Credits (LIHTC) from its state. If those tax credit projects will not receive IHBG resources, they are not required to be described in the IHP. However, the recipient may wish to include non-IHBG activities in the IHP to provide tribal members with a more complete picture of housing activities.

If an activity will receive partial funding from an IHBG resource, it must be described in the IHP.

For example, if the recipient uses IHBG-funded staff persons to manage, inspect, or maintain an LIHTC-funded rental project, that project would be considered an IHBG-assisted project and the related activities must be described in the IHP.

Planning and Administrative expenses and loan repayments should not be identified as programs in the IHP. That is why there are dedicated rows in the Uses of Funding budget for these expenses. Instead, describe anticipated planning and administrative expenses in Section 6, Line 4 of the IHP, and describe actual planning and administration expenses in Section 6, Line 5 of the APR. Report the planned and actual amount of planning and administrative expenses in the dedicated row of the Uses of Funding budget (Section 5, Line 2). Please note that Reserve Accounts to support planning and administration is an eligible activity and should be identified as a program in the IHP, and any planned or actual expenditure from the Reserve Account would be reported by its program name in the Uses of Funding table.

For the IHP, complete the unshaded sections to describe the planned activities, outcomes and outputs in the coming 12-month program year. The recipient must complete Lines 1.1 through 1.4, Lines 1.6 and 1.7, and Line 1.9 for each eligible activity or program planned for the One-Year IHP. For the APR, complete the shaded sections to describe actual accomplishments, outcomes, and outputs for the previous 12-month program year. In particular, complete Lines 1.5, 1.8, 1.9, and 1.10 for each program included in the IHP.

**IHP: PLANNED PROGRAM YEAR ACTIVITIES (NAHASDA § 102(b)(2)(A))**

For each planned activity, complete all the non-shaded sections below. It is recommended that for each program name you assign a unique identifier to help distinguish individual programs. This unique number can be any number of your choosing, but it should be simple and clear so that you and HUD can track tasks and results under the program and collect appropriate file documentation tied to this program.

- One way to number your programs is chronologically. For example, you could number your programs 2011-1, 2011-2, 2011-3 etc.
- Or, you may wish to number the programs based on type. For example rental 1, rental 2, homebuyer1, homebuyer 2 etc. This type of numbering system might be appropriate if you have many programs that last over several years.
- Finally, you may wish to use an outline style of numbering. For example, all programs under your first eligible activity would start with the number 1 and then be consecutively numbered as 1.1, 1.2, 1.3 etc.
APR: REPORTING ON PROGRAM YEAR PROGRESS

Complete the shaded section of text below to describe your completed program tasks and actual results. Only report on activities completed during the 12-month program year. Financial data should be presented using the same basis of accounting as the Schedule of Expenditures of Federal Awards (SEFA) in the annual audit. For unit accomplishments, only count units when the unit was completed and occupied during the year. For households, only count the household if it received the assistance during the previous 12-month program year. (NAHASDA § 404(b))

1.1. Program Name and Unique Identifier:

Homeownership Program = Unique Identifier: HC-2020

1.2. Program Description (This should be the description of the planned program):

The Homeownership program aims to provide safe and decent housing through either acquisition or building of new homes. Housing that we currently are building, are all LED lighting throughout the home, with homes being built to the 6star BEES energy efficiency rating, meeting all current fire, safety and plumbing codes. We prefer to build homes versus acquiring homes because most homes located within our Tribal service area were built without safety or fire codes in place, and are safety hazards or falling apart and would end up not lasting the life of the mortgage. Newer constructed built homes that are built to current fire and safety codes, may be acquired if they pass a current Building Engineer’s Inspection, is built to no less than 6 star BEES energy efficiency rating and built using all current fire and safety codes. We will build or buy homes and mortgage to the qualified family, one interest free, zero down, home per grant year. This mortgage payback will be: one half the total development building cost of the home, to the low income AN/Al that meets the qualifications established by NAHASDA and the Ninilchik Indian Housing Program’s policies.

1.3. Eligible Activity Number (Select one activity from the Eligible Activity list. For any activity involving housing units as the output measure (excluding operations and maintenance), do not combine homeownership and rental housing in one activity, so that when housing units are reported in the APR they are correctly identified as homeownership or rental.):

(11) New Construction of Homebuyer Units [2022]

(12) Other – must provide description in boxes 1.4 (IHP) and 1.5 (APR) below

Describe Other Intended Outcome (Only if you selected "Other" above):

By building new constructed homes, we will provide safe, affordable and energy efficient homes, saving money for our low income AN/Al families and helping the environment by minimizing energy usage within the home.

(12) Other – must provide description in boxes 1.4 (IHP) and 1.5 (APR) below

Describe Other Actual Outcome (Only if you selected "Other" above):

We are building one (1) new home, that will provide safe, affordable and energy efficient housing, saving money for our low income AN/Al families and helping the environment by minimizing energy usage within the home.

1.6 Who Will Be Assisted (Describe the types of households that will be assisted under the program. Please note: assistance made available to families whose incomes fall within 80 to 100 percent of the median must be included as a separate program within this section.):

Applicants must not have owned a home within the last five years, have no outstanding debt to warrant a home being taken away in a lawsuit. Applicants must keep their information current since being added to the list.

1.7. Types and Level of Assistance (Describe the types and the level of assistance that will be provided to each household, as applicable.):
A new 3 bedroom, 2 bath, 6 star energy efficient home for a qualified low income AN/AI family.

Level of assistance is: Consistent with program policies. Zero down payment. No interest. 30 year mortgage, and which can be adjusted to accommodate for family's financial circumstances. Half of what the total development cost is, is owed to the Tribe, as long as the family does not default.

Planned. During FY 20 the Tribe plans to build 1 affordable 3 bedroom 6 star energy efficient home for a verified low income Alaskan Native or American Indian family within the Ninilchik Tribe's service area.

1.8. APR: Describe the accomplishments for the APR in the 12-month program year. In accordance with 24 CFR § 1000.512(b)(3), provide an analysis and explanation of cost overruns or high unit costs.

We also flipped one home that became available and placed another low income AN family into that home. We have completed the Environmental Review, purchased the land, had the Engineer conduct the soils test and drafted up plans for this 6 star energy efficient home to begin construction as soon as break up allows in the coming spring of 2021.

Work will be put out for bid through the NTC Procurement Department using procedures and policies established for
procuring a Contractor. No funds will be spent prior to the Environmental Review being completed. Applicants are

Limit is $2,000.00 per home/household every 5 years unless Council approves greater cost. Applicants can do their own work if they choose, allowing the full funds to go into materials and not into paying for a Contractor. Work will be verified to ensure that all materials obtained were used and that the agreed to guidelines in the application were met.
